Installation Guide
# CSA Group Reader App for Android Devices

Contents

Downloading and Installing the CSA Reader App

*__Important recommendation__ – As the Interactive Standard is 200 MB, we recommend that you perform the download while connected to WiFi**
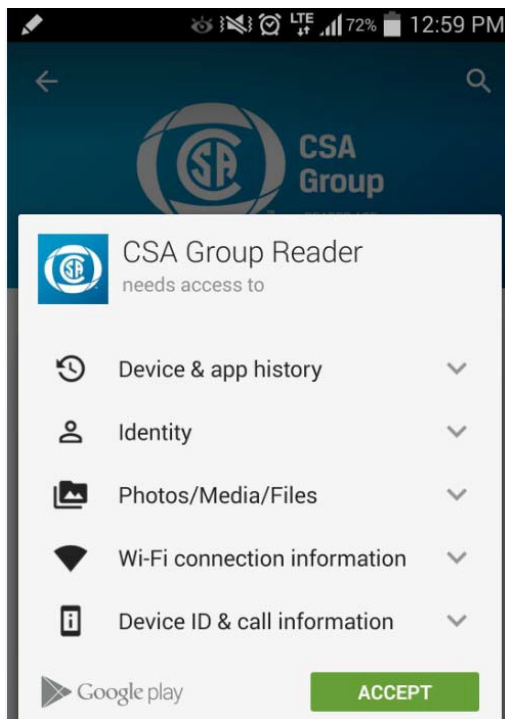

1) From your device, select the **Play Store** and type "CSA Reader" in the search field at the top right side of your screen:

2) Click **Install:**

3) You will then be prompted to accept permissions. Click **Accept.**

4) The CSA Reader will start downloading:

5) Click **Open:**

Creating an Account

1) Once the CSA Reader opens, click on the 3 lines on the left to open the menu:

**2)** Register a new account by clicking on **Register:**
(This is **not** the same login account for the CSA online store http://shop.csa.ca/):
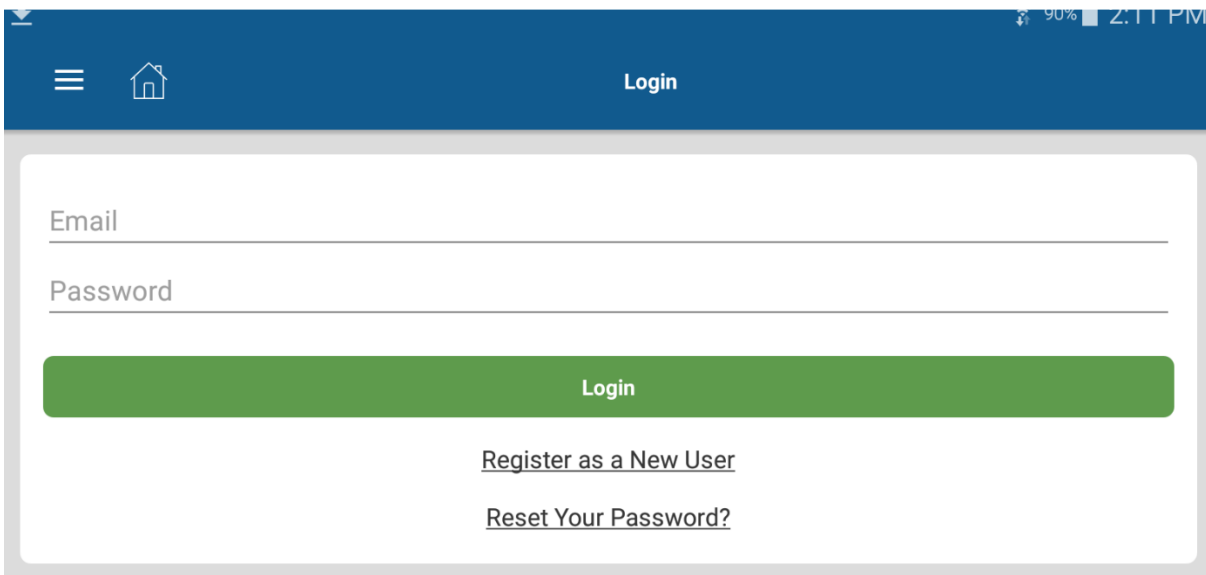

3) Complete the registration form by filling in the applicable information and click **Register**.

4) **Log in to the CSA Reader:** If you already have an account on the CSA Reader App, select **Login** and enter your credentials.

Redeeming your Code

Instructions to download the CSA eBook of your choice directly from the **Available Books** section:

1) From the Available Books tab, click on **Redeem Code** for the **CSA eBook** of your choice.
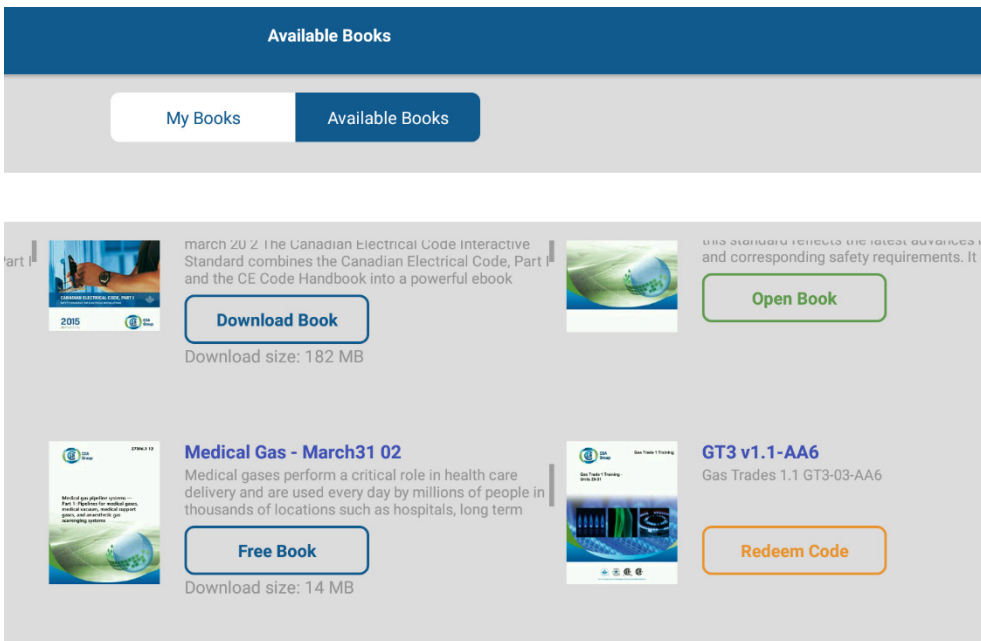

2) **Enter your redemption code** (received by email) to **redeem** your CSA eBook:
3) You will then be prompted to add the book to your library. Click Yes.
4) The download will begin
5) Once the download is completed, you will be alerted that the CSA eBook was added to your library.

6) Click on Open Book to read your CSA eBook.

Navigating the eBook

3 Definitions

Note: Throughout this Code, certain terms appear in bold italic type. These terms have been defined in this Clause to ensure understanding of their intended meaning in this Code. Defined terms have been highlighted in bold italic type only in certain key contexts. It is the responsibility of the user to ensure that the defined terms are understood in accordance with this Clause, whether or not they appear in bold italic type.
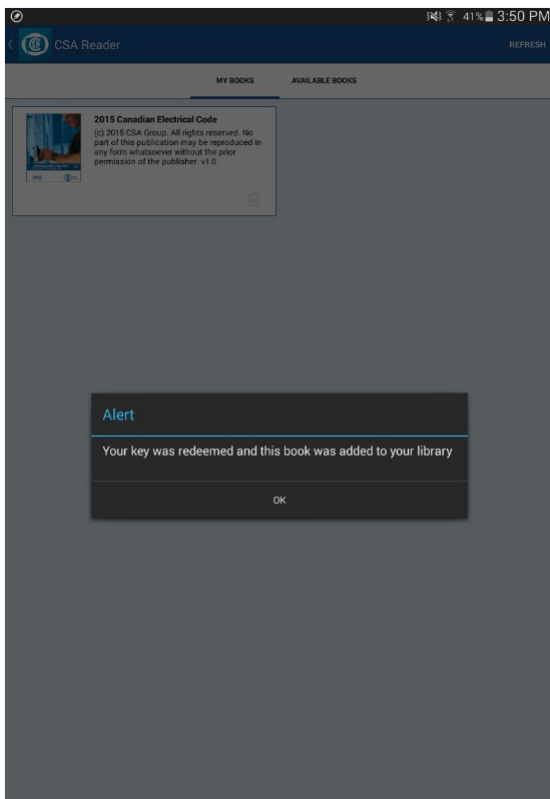

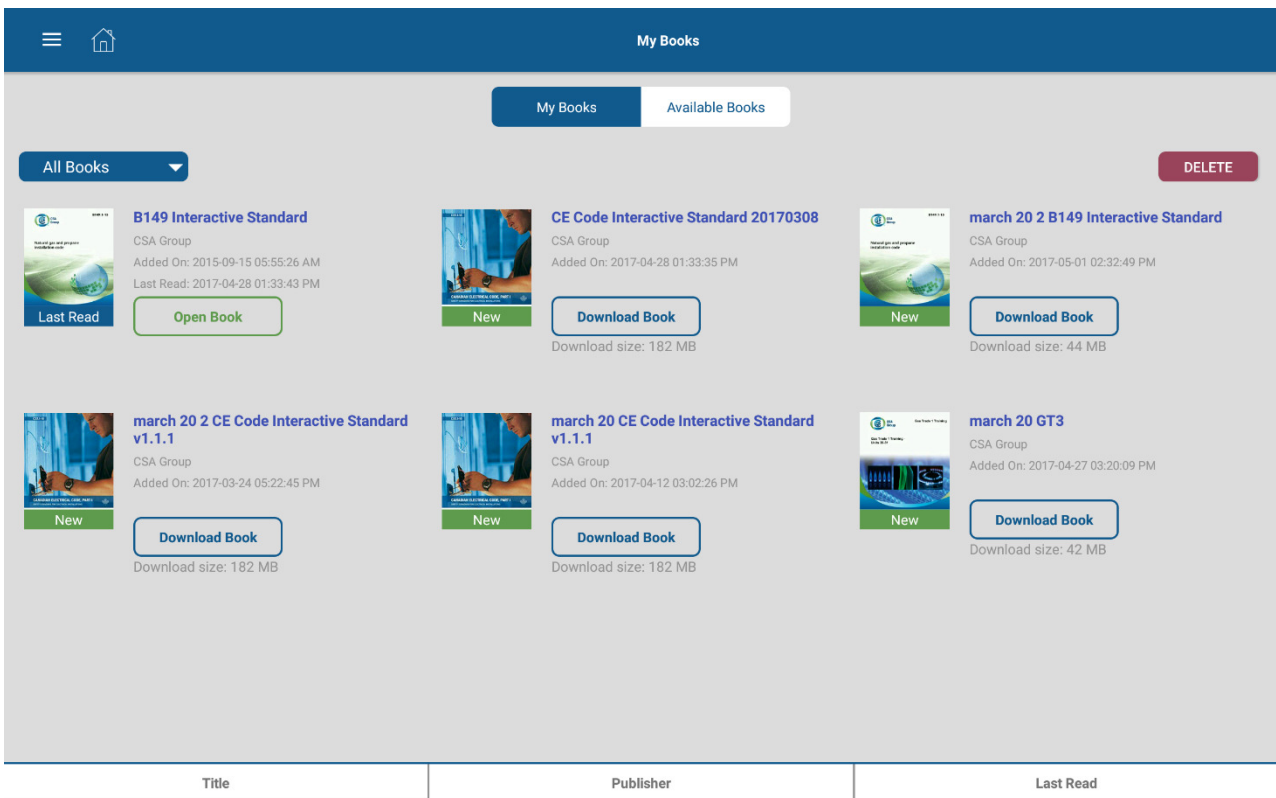

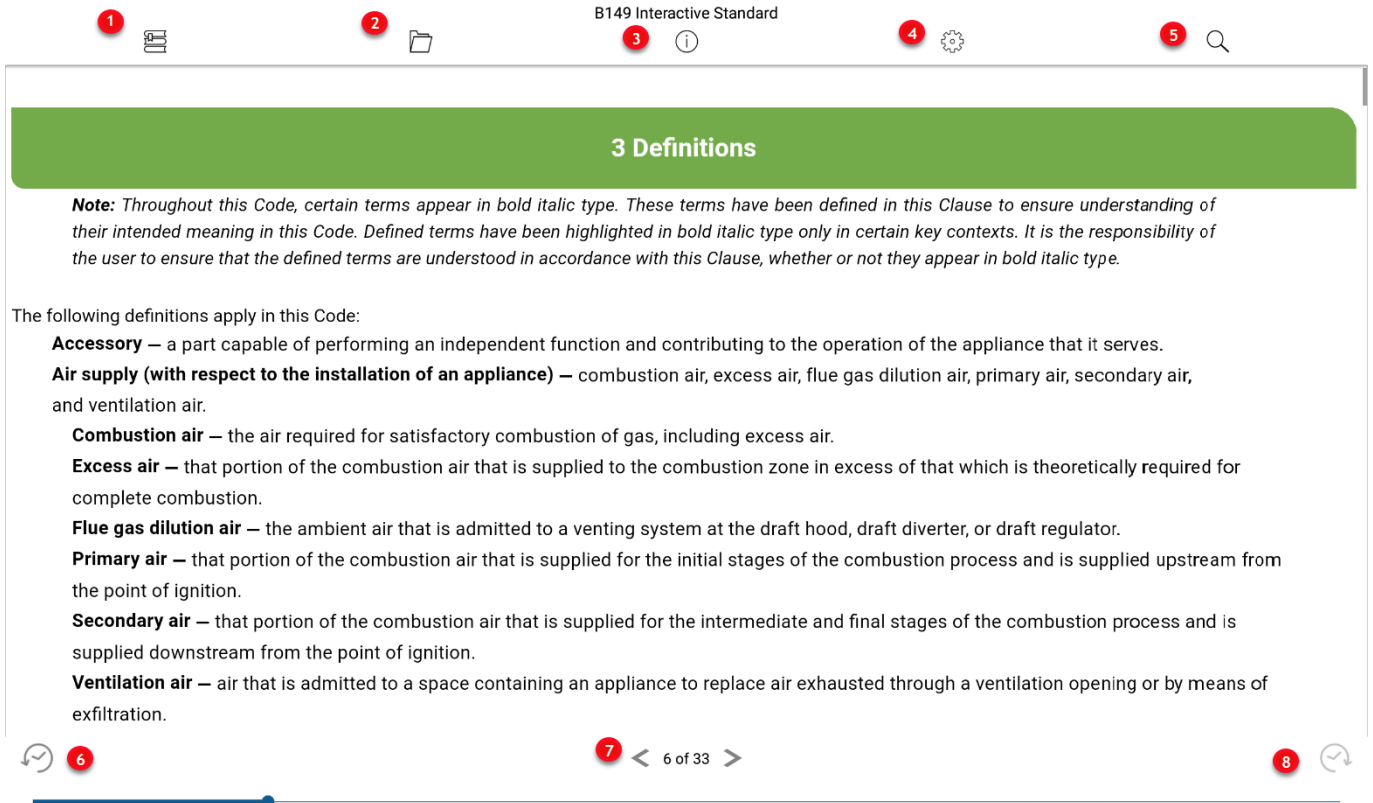

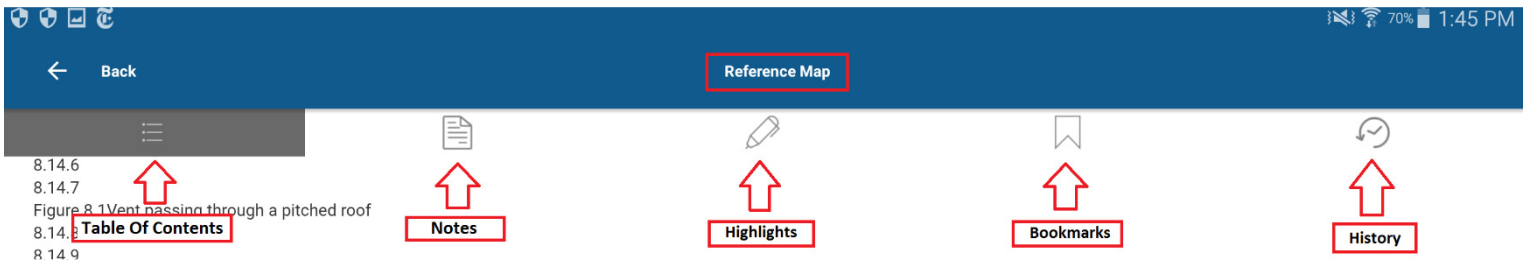

The following definitions apply in this Code:

Accessory — a part capable of performing an independent function and contributing to the operation of the appliance that it serves.

Air supply (with respect to the installation of an appliance) — combustion air, excess air, flue gas dilution air, primary air, secondary air, and ventilation air.

Combustion air — the air required for satisfactory combustion of gas, including excess air.

Excess air — that portion of the combustion air that is supplied to the combustion zone in excess of that which is theoretically required for complete combustion.

Flue gas dilution air — the ambient air that is admitted to a venting system at the draft hood, draft diverter, or draft regulator.

Primary air — that portion of the combustion air that is supplied for the initial stages of the combustion process and is supplied upstream from the point of ignition.

Secondary air — that portion of the combustion air that is supplied for the intermediate and final stages of the combustion process and is supplied downstream from the point of ignition.

Ventilation air — air that is admitted to a space containing an appliance to replace air exhausted through a ventilation opening or by means of exfiltration.
